CLOUD FORWARDING SUITE

we'll get to the root of your problem

The NovaSystems software solution for shipping, transportation and logistics.

The Nova Systems BeOne Cloud Forwarding Suite guarantees productivity, security and savings.

THE SOLUTION

"The Nova Systems consolidated technological experience achieves maximum utility with the BeOne solution which assures clients 24/7 service anywhere in the world, simplicity and speed in managing the shipping, transport and logistics software.

CLOUD FORWARDING SUITE

The Client accesses his data, from the head-office and/or from branches, at any time and from anywhere in the five continents.

CYBER-SECURITY AND PRIVACY

Cloud Forwarding Suite guarantees that the software applications and systems cannot be breached, thanks to the businesses elaborating their own data and telecommunications networks with which the data is transmitted.

All this has convinced many large, medium and small businesses to adopt the BeOne solution.

UNIQUENESS OF THE SOLUTION

BeOne Cloud Forwarding Suite is the software per excellence on the market that distinctly differentiates Nova Systems from other businesses in its industry. Because of this our Clients do not have to periodically invest considerable amounts for outlining, installing, updating and servicing hardware and software products. Starting with server costs, almost never proportioned to actual business needs, to which must be added costs for specialized internal technicians and consultancy fees.

HIGHER LEVEL OF PRODUCTIVITY

Thanks to the BeOne Solution, the constant technological support adapted to every single Client's needs and the dependable assistance are entirely supplied by Nova Systems, who has been certified and on the national and international market for over 30 years, has proven its efficiency and effectiveness in benefiting the Client. The BeOne Cloud Forwarding Suite eliminates each and every obstacle in

business technological processes, from servers to pcs.

SAVINGS

The cost of BeOne is calculated only on what is effectively used (pay per use). The sums saved allows the business to concentrate their funds in other initiatives in order to enrich their business.

RESEARCH AND DEVELOPMENT

The exclusiveness of the software solution is a guarantee for an efficient business structure. The merit goes to the new software solution BeOne, accomplished by the Nova Systems Engineering division, formed of highly qualified professionals, expressly dedicated to research and development of state of the art systems and applications for software management of shipping, transport and logistics allowing the clients to be highly competitive in a constantly changing market.
