With an internationalization perspective, Nova Systems chooses to participate to Expo Carga 2013 in order to extend its market to Latin-America. The Company decided to be present in Mexico after the investments in research and product that have already obtained great approval on an international level.

Expo Carga is the reference exhibition for the Companies and the operators of transportation and wares sector and took place at the WTC in Mexico City from June 11th to 13rd.

Expo Carga is an event organized by Fidalex Group, a French-Mexican Company with almost 10 years of experience in the branch.
