Nova Systems attended the Dia del Transitario, an event which takes place in Casaramona in Barcellona coordinated by Atea – Oltra, the International Shipping Association of Barcellona.

In its eighth edition, the Catalan Institution of approximately 250 businesses in the transport and shipping industry were present and gave Nova Systems Iberca future president, Andreu Campanario Ponga, the opportunity to present in the Maritimas Journal the Be One Cloud Forwarding Suite, the Nova Systems innovative software solution.

During the gala dinner **Santi Vila the Enviroment and Eco-Friendly Minister** underlined: "Even if

the economic growth is still fragile it is upon us. We are gradually coming out from the economic crisis, as has evidenced our increase in exports.
