

18-01-2013: The event will take place from February 28th to March 3rd, 2013

Nova Systems at TranspotecLogitec

The Company will be present at pavilion 8 stand E11-1

Nova Systems will be present at TranspotecLogitec, the fair dedicated to the trucking and logistics organized by Fiera Milano and that will take place at Veronafiere from February 28th to March 3rd, 2013.

In order to satisfy the specific market needs, for the first time Fiera Milano chooses to take one of its expositions to Verona, which is the junction of the two big European corridors 1 and 5 and has a natural industrial vocation for trucking, distribution and components branch.

Thanks to the participation of companies from the main European countries and the Mediterranean, TranspotecLogitec is the opportunity to combine business and professional updates as a support for Companies like Nova Systems that are committed with the internationalization. The Company will be present at pavilion 8 stand E11-1.
